

Experience

Cloud Security Reliability Engineer Intern

Searce Inc.

Apr 15, 2026 – Aug 26, 2026

- Analyzed **Google Cloud infrastructure utilization**, billing data, and usage patterns to identify **cost inefficiencies** and recommend **resource rightsizing** opportunities.
- Developed and implemented **cloud cost optimization strategies** that helped a client achieve **\$2,000+ in savings**, balancing cost efficiency with **application reliability** and performance.
- Performed **FinOps analysis** across cloud resources to improve **resource efficiency**, cost governance, and cloud consumption while identifying optimization opportunities.

AI Full-Stack Engineering Intern (QA Focus)

NeuraMach AI Studios

Jan 12, 2026 – Apr 12, 2026

- Resolved production **frontend defects** and delivered targeted **UI enhancements**, improving application stability and user experience.
- Designed and implemented a secure **AWS video delivery solution** using **S3** and **CloudFront**, incorporating signed cookies, authentication-based access control, and protected content delivery.

Frontend Developer

Abhinandan Mountreea — Freelance

Jul 2025 – Nov 2025

- Translated **business and UX requirements** into a high-performance real estate platform using **React.js**, **Vite**, and **GSAP**.
- Integrated **Cloudinary CDN**, WebP conversion, caching, and lazy loading, reducing initial page load time by **50%**.
- Improved responsive UX through parallax animations, micro-interactions, and performance optimization, increasing user engagement by **30%**.
- Applied **SEO best practices** and integrated **@vercel/analytics** to monitor real-time application performance.

Projects

Distributed File Storage System

Jul 2025

- Designed a scalable **AWS-based distributed storage solution** using **EC2** and **S3**, addressing availability, scalability, and low-latency access requirements.
- Built a fault-tolerant architecture for reliable file storage and retrieval with a focus on **high availability** and performance.
- Developed **RESTful APIs** for file upload, download, and sharing using **Node.js** and **Express.js**.

Certifications

- Google Cloud Associate Cloud Engineer (ACE)
- Anthropic Claude Certified Architect Foundations — In Progress

Education

- MIT Art, Design and Technology University** — B.Tech in Computer Science

Aug. 2022 – Jun. 2026

Technical Skills

Cloud & Infrastructure: Google Cloud, AWS (EC2, S3, CloudFront), Docker, GitHub Actions, FinOps, Cloud Cost Optimization, Cloud Architecture

Languages: JavaScript (ES6+), TypeScript, Python

Development: React.js, Next.js, TailwindCSS, GSAP, Node.js, Express.js, REST APIs, MongoDB

Engineering: Git, Postman, CI/CD, Performance Optimization, Prompt Engineering, VS Code

Achievements

- Second Runner-up at **SHODH 1.0 Campus Problem Hackathon (2025)** for an innovative full-stack solution.
- Published research paper on **BCI-based robotic limb control** in **IJIRT**.
